Tus New York Post sums up Mr. Beech er's life in recent years in a not altogether unhappy vein. Iteaye: "Mr. Beecher's life was one of strange vicissitudes. He had great love of approbation and no man of his time received more of it; but he had one experience which cost him the esteem and brought on him the contempt o thousands of his countrymen. To many who hated him for political or theological teasons 'tho great scandal' was a permission to despise him for which they were not ungrateful. But many who loved him and honored him were obliged to feel that the evidence of his own hand convicted cent, his was a fearful trial, and nothing in his life became him like his bearing of it. It was terrible to meet him then on the street, he seemed so bowed and broken; his once cheerful face was worn and weary with the sorrow of his heart. It is a patent fact that never after that did he have the weight, the influence, the authority in political or religious matters that he had before. It is equally patent that the afterthought of many whose judgment was at first adverse to him grew less and

less to as the years went on.' A Shocking Tragedy.

> GARRETT'S ; ADMISSIONS erve to Confirm the Fact that a Scheme of

BALTIMORE, March 10 .- Robert Garrett this afternoon virtually admitted to a prominent Baltimorean that there was considerable truth in the newspaper talk of a big railroad deal. He would give no lefinite idea of the particulars of the scheme, but from his remarks the infer-ence was drawn that the Baltimore & Ohio Railroad has become a factor in a yndicate that is to control something like he national railway, reaching from Cana-la to the Gulf of Mexico, and probably

da to the Gulf of Mexico, and probably from New York to the extreme West. It is generally believed that the biggest railroad deal on record has been or is about to be made and that the passage of the Inter-State Commerce bill hurried the affair to a settlement. Mr. Sully has been active in arranging the details of the scheme and he is the only one positively known to Le connected with it, but a complete chain is believed to have been formed of companies operating connecting roads running the entire length of the North American Continent. Opinions differ as to whether a single share of the Baltimore & Ohio stock has been or will be transferred, but the belief is gaining ground that the deal includes not only the road but also its express and sleeping he road but also its express and cleeping

ar interests.

The wildest sort of talk is freely included in but actually no facts can be obtained from any one in a position to know any-hing about it. Many are inclined to believe that the 17,000 shares held by John Stocking. Hopking trustees or at least a considera-de portion of it has been placed under the control of the new syndicate, but the \$2,000 shares held by the city of Baltimore cannot be touched without a epecial act of the city Council.

The thirty thousand shares left in trust by the late John W. Garrett cannot be dis-posed of, as the will did not forbid a sale but simply advised that it be held in rust for twenty years so that a controlling he secured if sdvants

interest might be secured if advantaguous terms were offered.

Mr. Gerrett te-dsy told a gentleman at
the Merchanta' Club that he might rest
assurred that whatever was done would
be for the best interest of Baltimore, but
further information he could not give just
now. From this it was inferred that the
scheme was not fully consummated and
that important developments might be
expected in the near future.

Gives His Views on-the Alleged Sale-The New York Scheme Baltimore, March 10.—The Sun of to-day has the following: A gentleman prominent in Baltimoro & Ohio circles said:

Mr. Gould and his representatives endeavored to create the impression that nepotiations were actually in progress to this end, notwithstanding the repeated denisls made at the time by Mr. Garrett. In the meantime Mr. Gould and his friends secured such a hold en Jersey Central that they could force such an issue' on Mr. Garrett. It will be remembered that when the B. & O. first made its proposition for a traffic lictate terms to Mr. Garrett: where he It will be remembered that when the B. & O. first made its proposition for a traffic arrangement with the Reading and Jersey Central, the matter was referred to a special committee of the Jersey Central directors. At that time this committee was in favor of the proposition, and Mr. Samuel Sloan, one of the principals in the present syndicate, said that the reference was only for the purpose of arranging the details. The matter, however, has never revended a yote, and remains unsettled to details. The matter, however, has never reuched a vote, and remains unsettled to this day, so far as the committee is con-

THE PITTSBURGH END.

How the Baltimore & Ohio Deal is Viewe In That City.
Pittsburgh, March 10,-The Chronicle Telegraph to-day has the following: Business men generally discussed the

great syndicate deal to-day. Opinion as to its effects on the railroad systems immediately concerned varied greatly. Some hought it would strengthen and render all

thought it would strengthen and render all of them more valuable; others took the opposite view.

Mr. Ralph Bagaley was asked what he thought of it and said in substance: "The tendency of the age in this country is toward the creation of great monopolies, and this will be one of them. This is a bad thing for the country in one way, and a good thing in another. The formation of the Standard Oll Coupany has resulted in crushing out hundreds of small refiners and operators in oil, but it has given us cheaper and better illuminating oil than we would have had without its aid. It we would have had without its aid. It has improved and greatly cheapened the processes of manufacture. The result of this vast railroad combination will be somewhat similar. It will give the people cheaper and better rates of transportation, because it will reduce the operating expenses.

"The Baltimore & Ohio has always been the unruly child of the trunk line family, and every few weeks or months would dis-

and every few weeks or months would disarrange matters by shooting off at a tangent. It will be a good thing for the other great systems have it under control and operate in harmony with them. But if there should be active competition between the syndicate's lines and the other trunk systems, it will be necessary for them to practically rebuild the Baltimore & Ohio from end to end. Its alignment is bad and its trackage simply wrecked. Only by bringing it up to the highest state of perfection and elliciency can they hope to compete successfully with the Pennsylvania, the New York Central or even the Etie system. and every few weeks or months would di

timore & Ohio an entrance to New York to City over the tracks of the Jersey Central and save the immense coat of a new line thither.—It will greatly strongthen the Southern system by bringing it under a more ellicient management and giving it better connections."

Day before vesterday Baltimore & Ohio stock sold at 160, and advanced before the close of the day to 170. Yesterday it sold up to 180, and to-day it could not be had at any price, bids of 200 failing to bring out any of the shares. Just why it should have advanced so rapidly is a puzzle to experienced stock men, since the result of such a change as that just announced is lusually to depreciate all stock outside of the controlling interest.

HOW THE DEAL ORIGINATED.

Chicago, March 10 -A gentleman who sims to have seen the original contract for the sale of the Baltimore & Ohio railroad, is authority for the following state-

The plan for a consolidation of the var completed to Philadelphia it found itself oue railway interests, grew out of the eiehut out of New York except as a forts of Jay Gould to induce Robert Gar-dependent, or rival lines. It could, rett to pool the business of the Baltimore of course, build an independent line & Ohio Telegraph Company with that of the Western Union Telegraph Company. Mr. Garrett abzointely refused to become a party to such an arrangement, and declared that he would always keep his business interests under his own control; that the telegraph and railroad interests were identical, and that they would continue to be so as long as he controlled them; but at the same time he intimated that he was inclined to free himself of his business cares by the absolute sale of a controlling interest in the Baltimore & Ohio railroad, which would carry with it the control of the telegraph and express companies. which would carry with it the control of the telegraph and express companies. With this hint as a basis, the negotiators returned to New York and formed a syndicate composed as follows: Calvin S. Brice, Alfred Sully, Austin Corbin, John G. Moore, General Samuel Thomas, H. C. Fahnestock, Winslow, Lanier & Co. and J. S. Paco.

A contract was then framed, in which Mr. Garrett agreed to transfer to the syndicate a controlling interest in the Baltimore & Ohio Railroad, within thirteen days, for \$16,000,000. a forfeiture being de-days, for \$16,000,000. a forfeiture being de-days, for \$16,000,000.

same sentiments. The rumor probably originated from the fact that such a move on the part of the Vanderbilt interests on the part of the Vanderbilt interests would be a wonderful stroke of policy. By acquiring the Ohio Central Iron Edison, on the Bee line, to Corning, where the K. & O. has its northern terminus, it would become a great southeastern arm of the Vanderbilt system at Cleveland, and then coming down to the Ohio and reaching another arm down to Cincinnati, and absorbing a big share of the business which the Ohesapeake & Ohio is now reaching for, it will be readily seen what a powerful factor it would become in intersitate commerce.

a powerful factor it would become in inter-State commerce.
But independent of the Vanderbilts, which Lake Erie & Cincinnati and trans-Virginia connections with tide-water, it would at once take rank with the great transportation lines of the country. The gentlemen composing the party evidently mean business, if not for some powerful combination, then for themselves.

Touching Remarks of Rev. Dr. Hall The Services Very Brief and Without Display-The Will of Beecher-The Contents Not Made Public,

NEW YORK, March 10 .- In spite of the rain the streets in the vicinity of Rev Henry Ward Beccher's house were crowded with people this morning. At 8 o'clock Police Captain Campbel

and a squad of twenty police took up their

stations in front of the house. A large number of floral; emblems wer received before the private services were commenced. Two wreaths of white roses. lilies of the valley and smilax were re ceived by Mrs. Colonel Bascher early in the morning. These bore the cards of illen Terry and Henry Irving. Mrs. S.

. White sent a pillar of white roses. The coffin rested in the center of the ront parlor and was surrounded with a bank of fragrant flowers. The sweet perfame pervaded the sir, and on all side friends and admirers of the dead divine. The remains were dressed in a suit of toned up and the right hand laid across the heart. The features were natural and there was a smile upon the face. The long gray hair was brushed back over the ears, just as Mr. Beecher wore it when alive. Early in the morning, before the services, Mrs. Beecher went into the parlor and stood by the coffin for some time. She bent over the remains, and, after imprinting a kies upon the cold lips, was led into the back room.

Promptly at 9:30 o'clock Rev. Charles Hall, of the Church of the Holy Trinity, entered the house. After a short convertion with Major J. B. Pond he entered the front parlor and commenced to read the four parlor and commenced to read the weeping," and "Come, Holy Spirit."

At the conclusion of the services at the ouse the Rev. Dr. Hall apoke for fifteen minutes. He was very much affected and

Dr. Hall began by referring to the beau-tiful Jewish custom of whispering in the ear of the dying person the Jewish sen-tence which, when translated into English, meant: "The Lord Jebovah is our God," meant: "The Lord Jebovah is our God," and then described how, when the head of the household died the beautiful significance of the ceremony of bearing the body out at the front door and the laying of it upon the ground with a candle at the head and another at the feet; how the laying of the body on the ground was emblematic of the fact that we are all from mother earth, and to her must return no.

A missionary meeting held last night in the Union Park Congregational Church, the pastor, Rev. Dr. Noble, in introducing Rev. E. A. Adams, said that he regretted from the bottom of his heart the recent action of the Congregational ministers about the sending of letters of sympathy to Mrs. Henry Ward Beecher. He was very sorry that he was not present in person, for had he been there letters would have gone, at least from the minority. He deprecated the preschers' lack of good sense, and said that, although on theological points many of them altogether differed from Mr. Beecher, still all must admit that they lost their foremost pulpit orator in America and one of the ablect of men.

Dr. Noble's remarks were applanded, and it was unanimously voted that the congregation of the Union Park Church send their sincers sympathy to Mrs. Beecher in her silliction.

was getting \$3,000, but the Indianapolis
team will pay him but the limit. On the
other hand Glasscock, Denny and Boyle
declare that Indianapolis has a reputation
for failing to pay salaries in full with the League. The cause for
all this is that certain people who are interested in the new club were prominently connected with the old League club in
that city during the season of 1877, when
nearly all of the players lost from \$200 to
\$700 of their salaries. Since then Indianapolis has been on the players' black
list.

It is reported further that it was evident that the Lagura was ceiting feight.

It is reported further that it was evi-dent that the Lesgue was getting fright-ened over Hewitt's threat to resign. He threatened to withdraw the Washington threatened to withdraw the Washington Club from the League unless he got Glasscock and Denny, offering \$10,000 for the release of the pair. He was offered instead Whitney, Myers and O'Brien. He would not listen to it, and at 2 o'lock Wednesday morning he was awakened by six delegates, who promised to vote to give him Whitney, Myers, Donnelly and O'Brien if he would not resign. They also promised that neither Glasscock nor Denny would be allowed to go to any of the strong clubs. He agreed to that.

Silently Stolen Away-Some Anecdotes of Senator John E. Kenna.

pecial Dispatch to the Intellige Washington, D. C., March 10 .- The entire West Virginia delegation in Congress has departed, and will likely remain away until Congress [meets again. Senator Kenna has given up his Washington residence, and has moved his household goods to Charleston. I learn that he will not again "keep house" in Washington. Hon, Eustace Gibson will settle down to the practice of his profession in Huntington, and says he does not contemplate entering politics again. It has been a losing investment with him, in a financial sense, and has been a great source of worry pclitically and physically. If you could witness how the latter are harrassed daily, you would feel like congratulating Gen. While in the city day before yesterday, Senator-pro-tempore Lucas was the reci pient of many congratulations from pient of many congratulations from friends who called to see him. He accepted all the honors with his characteristic modesty. I have not heard whether he visited the government departments with the little list referred to in a former dispatch. His portrait has appeared in several of the daily papers.

Speaking of portraits, an interesting caricature of; Senator Kenna is going the rounds of the papers. It represents him as standing in his usual careless position his clothes awry and an ancient slouch hat set on the back of his head. His overcoat is thrown carelessly over his

Among other things he wears is a sorrowful expression of countenance, as if he has just received a dispatch from Charleston conveying the news that Camden was left. He is portrayed, in fact, just as the people of Washington are used to seeing him. Not long since he blossomed out one Sunday morning in a bran new suit of clothes and a silk hat. So rare was the sight that it Mr. Kenna. He appeared as ill-at-ease in the new toggery as a young man promensiding a feshionable thoroughfare with his first girl. He finally started home, and two hours a just I saw him again on the street looking perfectly contented and happy, dressed in his old clothes, the proverbial slouch hat and a rasty overcoat, the faded velvet collar of which was turned up, showing a large rent underneath.

Once (a long while ago) Senator Kenna startled the citizens of Washington in this same manner by appearing in a neat new sait and silk hat. The matter excited so much comment that a correspondent wrote a long description of his appearance for his paper. Before sending it to the press he read it to Senator Camden, who appeared to be much served.

An Unexpected Flow of Oil. An Unexpected Flow of Oil.

About two years ago the Standard Nail and Iron Company, while at Olifton, W. Va., bored a well for the purpose of getting gas to run their mill by. The well proved to be a failure, as they supposed, and they sold it to parties at Olifton, and it has been idle ever since. A few days ago it was discovered that the well had commenced to flow oil in considerable quantities, and the parties who purchased the well are now building tanks to hold the oil, as a big flow is expected. It is creating quite an excitement.
